

GacoGrip
MAY 2006

GACOG RIP GRANULES

DESCRIPTION: Aggregate of walnut shells that are dense, hard, and have a low specific gravity.

USAGE: Skid resistant texture for pedestrian decks.

COLOR: Light Brown

SPECIFIC GRAVITY: 1.35

HARDNESS: MOHS Scale 3-4

FLASH POINT: Closed Cup 380° F (193.3° C)

MOISTURE CONTENT: Less than 2% by weight after processing.

PACKAGING: 12 oz. container.

SIZE: 40 on 60 (.42 mm on .25 mm)

STORAGE: Store in a low humidity environment.

APPLICATION: Mix 12 oz. of GacoGrip with one gallon of GacoDeck Top Coat. Stir thoroughly, dispersing granules throughout the coating. Apply as recommended on the GacoDeck Top Coat label.

NOTE: In confined areas accumulation of GacoGrip dust may present an explosion hazard. Provide adequate ventilation to reduce dust.
